

13 - 16 October, 2026 | Athens, Greece

BIOEMTECH

6th Annual BIOEMTECH Preclinical Workshop

Once per year, at BIOEMTECH, we open our doors to the **Drug Discovery & RadioLigand Therapy** community, creating a space to exchange methodologies, insights and experience. Leading speakers from Academia & Industry come together to explore best practices, combining scientific discussions with hands-on experience in our boutique GLP laboratories.

Companies joining the Workshop

3B Pharmaceuticals

ARTBIO

RAD

RADIOPHARM THERANOSTICS

NAVIGO
PRECISION

Ratio
THERAPEUTICS

TRACER

United
Theranostics

A warm welcome

6th Annual
BIOEMTECH
Preclinical
Workshop

Welcome to the 6th Annual BIOEMTECH Preclinical Workshop!

After years of active involvement in **Drug Discovery** and **RadioLigand Therapy**, we set out to create a workshop that reflects the challenges, opportunities and questions we encounter throughout our own journey. Inspired by years of participation in scientific meetings around the world, our goal is to bring together researchers and industry professionals in an environment that promotes knowledge exchange, open discussion and networking. The Workshop is designed to provide participants with a **comprehensive view of the radiopharmaceutical development pathway**, from preclinical evaluation to clinical translation, while creating opportunities for new collaborations and professional connections.

Main workshop points:

- From target biology to the development of a preclinical RLT package
- Translational planning and key considerations before clinical entry
- Theranostics, radiochemistry and product quality throughout development
- Platforms, targeting approaches and combination treatment strategies
- Regulatory readiness and late-stage translational decision-making

The Workshop will begin with a first day dedicated to a visit to our laboratories, offering participants a firsthand look at key preclinical research workflows.

Looking forward to welcoming you in Athens and sharing insightful conversations!

Past attendees have said:

"This has been a great meeting with varied and highly relevant discussions. Thank you to the organisers. I can recommend attendance in future years to others."

Senior Director Research Strategy
Telix Pharmaceuticals

"Thank you to the BIOEMTECH team for the invitation to such an engaging imaging workshop and panel discussion on radioligand theranostics! I thoroughly enjoyed the diverse conversations on topics ranging from dosimetry, imaging modalities, and animal models to their impact on the design of RLTs. I was particularly impressed with the new imaging facility and capabilities."

Director Biological Engineer
AstraZeneca

"The workshop was exceptionally well organized, offering high-quality scientific content, practical insights, and valuable networking in a highly collaborative atmosphere. I left with a deeper understanding of several new scientific perspectives. It was a truly enriching experience."

Head of *in vivo* Research
ARTBIO

Workshop day 1

Tuesday 13 October

6th Annual
BIOEMTECH
Preclinical
Workshop

09:00 Bus transfer from Central Athens Hotel to BIOEMTECH Laboratories

09:45 - 10:30 Welcome coffee and introductions

Maritina Rouchota
Chief Quality Officer
BIOEMTECH

10:30

Overview of BIOEMTECH capabilities for preclinical RLT development

10:30 - 13:00 GLP Laboratory visit and demonstrations

A guided visit through BIOEMTECH's preclinical research workflows, including eyes™ imaging systems production facilities, *in vitro* assays, model development, radio-compound preparation, anaesthesia and compound administration procedures, as well as image acquisition.

13:00 - 14:30 Lunch and Networking break

15:00 Bus transfer from BIOEMTECH Laboratories to Central Athens Hotel

Workshop day 2

Wednesday 14 October

6th Annual
BIOEMTECH
Preclinical
Workshop

09:00 Registration and welcome coffee

Maritina Rouchota
Chief Quality Officer
BIOEMTECH

09:30 Workshop Opening

All participants **09:50** Participants Roundtable

Session 1: From target biology to preclinical RLT package

Anneli Savinainen
VP Head of Preclinical Development
Mariana ONCOLOGY

10:10 Preclinical Development of a DLL3-Targeted Radiotherapeutic Agent

Marion Malenge
Director RLT Discovery and Preclinical Sciences
Actithera

10:50 Experience in preclinical RLT development - **TBC**

11:30 - 12:00 Coffee break

Jan Lennart von Hacht
Project & Alliance Manager
3B Pharmaceuticals

12:00 Peptides in RLT preclinical development
TBC

Moderator: **Marion Malenge**
Participants: **Anneli Savinainen, Jan Lennart von Hacht, Jon Archbold**

12:40 **Panel discussion**
Building a robust preclinical RLT package

13:20 - 14:20 Lunch and Networking break

Session 2: Translational planning before clinical entry

Levente Meszaros
VP Preclinical and Translational Sciences
Radiopharm Theranostics

14:20 Navigating the preclinical landscape to support early-phase trials in the USA and Australia

TBC
TBC
TRACER

15:00 Phase 0 clinical trials: Role in RLT development - **TBC**

Jon Archbold
Associate Director Translational Imaging
Bayer

15:40 Learnings from CRO ↔ Sponsor Interactions in the Preclinical RLT Arena - **TBC**

Moderator: **Levente Meszaros**
Participants: **Marion Malenge, Jan Lennart von Hacht - TBC**

16:20 **Panel discussion**
When is an RLT candidate ready to move toward the clinic?

17:00 - 17:30 Wrap-up & Closing remarks

19:00 Guided visit to the Museum of Cycladic Art followed by dinner

Workshop day 3

Thursday 15 October

6th Annual
BIOEMTECH
Preclinical
Workshop

09:00 Registration and welcome coffee

Session 3: Theranostics, radiochemistry and product quality

Munir Ghesani

Chief Medical Officer

United Theranostics

09:30

From molecular vision to therapeutic reality: the past, present and future of theranostics - **TBC**

Jon Goodwin

Director, Discovery

ARTBIO

10:10

TBC

10:50 - 11:20 Coffee break

Elisa Napoli

Radiopharmaceutical Expert

University of Oslo

11:20

In-depth QC of radiopharmaceuticals and alpha emitters

Moderator: **Munir Ghesani**

Participants: **TBC**

12:00

Panel discussion

Chemistry, QC and release criteria in RLT development

12:40 - 13:40 Lunch and Networking break

Session 4: Platforms, targeting and combination strategies

TBC

13:40

Combination therapies and evolving therapeutic strategies - **TBC**

Ina Coburger

Scientist Protein Analytics

Navigo Precision

14:20

Ligand development based on platform examples - **TBC**

Michal Zimmermann

Associate Director, *In vitro* Target Validation

AstraZeneca

15:00

Mechanistic strategies for radioconjugate combinations

Moderator: **Elisa Napoli**

Participants: **Michal Zimmermann, Munir Ghesani, Ina Coburger** - **TBC**

15:40

Panel discussion

Choosing the right target, ligand, isotope, QC strategy and combination approach

16:30 - 17:00 Wrap-up & Closing remarks

20:00 Dinner @ "The Ugly Duckling" traditional restaurant

Workshop day 4

Friday 16 October

6th Annual
BIOEMTECH
Preclinical
Workshop

09:30 Registration and welcome coffee

Session 5: Regulatory readiness and late translational decision-making

Jeff Norenberg

Co-founder & CEO

iSeek Biopharma

10:00

How to prepare an IND package for authorities - **TBC**

Vicki Jardine - TBC

VP Global Clinical Development

Ratio Therapeutics

10:40

Clinical translation: the biotech perspective - **TBC**

11:20 - 11:50 Coffee break

TBC

11:50

From preclinical evidence to clinical execution: final decision points before trial activation - **TBC**

Moderator: **Anneli Savinainen**

Participants: **Vicki Jardine, Jeff Norenberg - TBC**

12:30

Panel discussion

Aligning scientific rationale, regulatory package, hospital feasibility and clinical trial execution

Nick Afentoulides

VP Business Development

BIOEMTECH

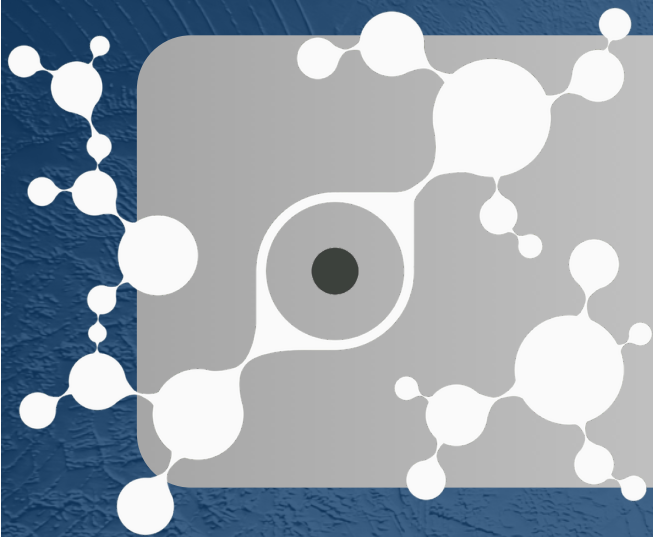

13:10

Closing remarks

14:00 Lunch and Closing Ceremony

Be part of our Workshop

 **BIOEMTECH**

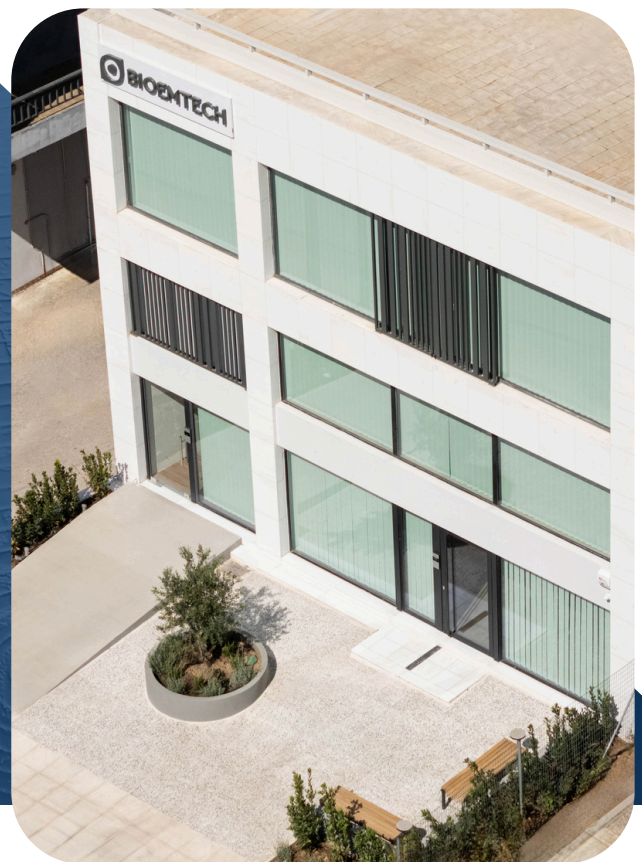

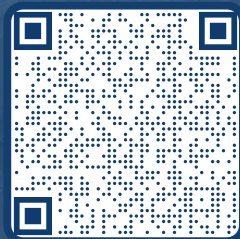

6th Annual **BIOEMTECH** Preclinical Workshop

Rates:

- **€ 950 Early bird**
(registrations before July 20, 2026)
- **€1150 Regular**
(registrations after July 20, 2026)
- **€780 Student**

Register now!

Venue

Central Athens Hotel

21 Apollonos str., 10557, Athens

**Hands-On Session will be held at
BIOEMTECH Laboratories**

271 Kleisthenous str., 15344, Gerakas

**See you soon in Athens
for four days of science
and networking!**
